## Air Mauritius Financial Results – October to December 2010

### Statement by André Viljoen, Officer-in-charge

*'We are pleased to confirm that Air Mauritius is now back on track after the announcement of excellent third quarter results. The record number of passengers achieved together with the high load factor depicts an optimal utilisation of our resources and the commercial drive in all our markets. We have achieved this performance against a backdrop of the hike in fuel prices above the USD100 mark per barrel, natural calamities and intense competitive pressure.*

*I would like to pay tribute to my colleagues for their efforts, our customers for their patronage, our partners for their trust, our Board and shareholders in particular the Government of Mauritius, for their unflinching support; and the Mauritian public for their continued interest in the national airline.'*
