

CAREER OPPORTUNITY

Trainee Technical Assistant – Aircraft Maintenance

(Ref: TAM/24/016)

Air Mauritius Ltd, the national carrier of Mauritius, is seeking to recruit dynamic and highly motivated candidates to assist the Aircraft Maintenance Team. If you feel you have the right profile, it is an opportunity now to start a challenging career and become part of a dedicated and professional team of the Air Mauritius Technical Services Aircraft Maintenance Department.

JOB PROFILE:

The Trainee Technical Assistant – Aircraft Maintenance will support Licensed Aircraft Maintenance Engineers (LAE) in maintaining and repairing aircraft. This entry-level role is essential for gaining experience in the aviation maintenance field and typically serves as a stepping stone towards becoming a fully certified Aircraft Maintenance Technician.

The duties and responsibilities will include the following inter-alia:

- Be familiar with Work Instructions Manual, approved data and any other maintenance procedures.
- Assist the Certifying Staff/Support Staff in carrying out maintenance of aircraft, aircraft systems and maintenance checks during aircraft operations.
- Ensure that over and above specifically allocated tasks on an aircraft, at all times look for defects and report to immediate superior to ensure proper action of these defects.
- Sign for the work immediately after completion, thereby accepting responsibility and also ensure that the work, to which your signature relate, has been performed in an efficient manner and is serviceable.
- Use only the tooling and equipment approved for each task, ensure equipment and tooling is fit for use.
- Ensure good general working practices, working with the appropriate serviceable tools and equipment, cleanliness of premises, equipment, work areas and surroundings, free access to firefighting equipment including water cannons, proper usage of company assets falling under your responsibility.
- Assist to carry out maintenance work in a safe way.
- Ensure and support effective communication with team members.
- Report any unusual conditions observed to your immediate superior.
- Report to superior of any error made or found.
- Ensure proper recording of attendance as per company policy.
- Seek advice from your immediate superior if in any doubt of the serviceability of any tool or equipment or when work cannot be performed in accordance with the approved data.
- Assist in updating documentation and information system.
- Assist in the safekeeping of all assigned tools and equipment.
- Perform tool box inventory before and after use thereby ensuring tool boxes are tidy, available for inspection at any time and that no tools have been left on Aircraft.
- Ensure vehicles used are cleaned after completion of work and are parked back in their designated areas.
- Perform aircraft arrival and departure including marshalling and ramp to deck communication as applicable.
- Carry out refuelling as guided by the Maintenance Controller or Licensed Aircraft Engineer.
