Operational Update – Flights MK744 and MK745

Air Mauritius confirms that flight MK744, operated by an Airbus A330-900neo aircraft, bound for Delhi, was diverted to Mumbai following a technical issue. The aircraft landed safely at Chhatrapati Shivaji Maharaj International Airport at 03h05 (Mauritian time).

In accordance with local authorities' requirements, all passengers are required to disembark and collect their baggage, and in the meantime, refreshments have been served on board.

80 hotel rooms have been booked so far. Our teams are making every effort to provide passengers with the necessary assistance and support. Passengers will regularly be kept informed as and when additional hotel accommodation becomes available.

Air Mauritius has also arranged for passengers travelling under medical clearance to be transferred to the nearest clinic.

Meanwhile, the aircraft is being attended to by the maintenance teams in Mumbai, who are working to resolve the technical issue.

Passengers are also advised that both runways at Mumbai Airport will be closed for take-offs and landings between 11h00 and 17h00 (Indian time) due to planned scheduled post-monsoon preventive maintenance work.

Air Mauritius teams are also in contact with passengers scheduled to travel from Delhi to Mauritius on flight MK745. Affected passengers are being offered alternative arrangements, including hotel accommodation and rerouting options, in an effort to minimise the inconvenience caused by this disruption.

Air Mauritius sincerely apologises for the inconvenience caused by this diversion and reiterates that the safety and security of its passengers and team members remain its utmost priority.

End
